AI Simulation for Business Bootcamp

Get Real Experiences, Understand Real Business Cases on How AI Machine Learning Can Help At Every Step In 2 Days

Will It Be Good If You Can...

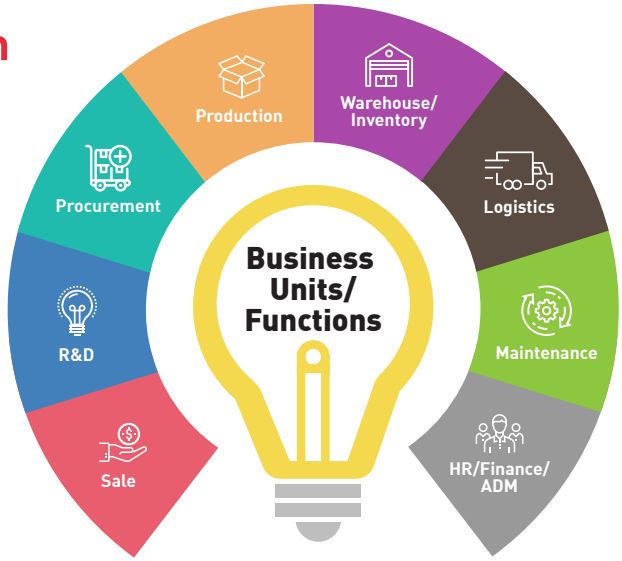

1. Integrate business requirements with AI Machine Learning (ML)
2. Simulate AI's optimization/prediction capability with real business cases
3. Seeing the results within 2 days, instead of several months
4. Not depending on coding/programming

AI Simulation for Business Bootcamp

A Signature Program by HexaTech Solutions, the leading AI provider with integrated services and resources from domain experts in "Business", "People & Culture Transformation", and "No-Code, AutoMachine Learning" from best-in-class technology providers to enable the most sustainable, cost-effective, and successful AI implementation.

What You Will Learn From This Program

- AI Machine Learning Introduction
- "AI Pre-built Use Cases" with data samples and results from No-Code, AutoML (Ready to Go Application)
- Data requirements and preparation
- Simulating AI ML implementation experiences
- Building AI Use Cases to align with organization's strategy
- Data Security & AI Ethics
- Mindset and AI initiators

This Program Is Best For

- Executives and Talents in Every Field
- Process Improvement Team

How Are This Bootcamp Different to Other AI Workshops?

- Integrates all the 3 dimensions - Business+People+Tech necessity to enable a successful AI implementation
- Fast-track learning through utilizing "Pre-Built Use Cases" from the library of a world-class AI tech company which has more than 200 customers from 19+ industries
- Speed & Scale the AI implementation with "No-Code Auto ML" that requires no coding and data scientist

Samples of Use Cases

MANUFACTURING APPLICATIONS

Process Optimization

Quality Prediction

Equipment Diagnostics

Recipe Design

BUSINESS APPLICATIONS

Sales & Marketing

Human Resources

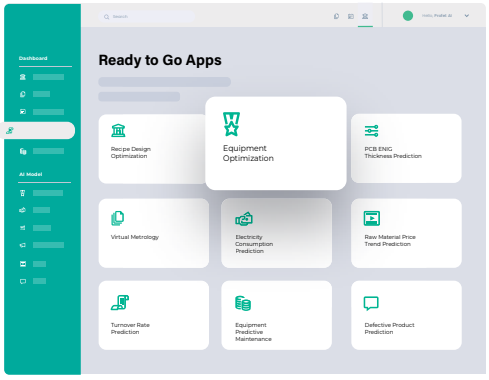

Supply Chain Management

Purchasing & Pricing

"Ready To Go" Application

Success Cases from PROFET AI

BenQ Materials Corp

Top 5 polarizer supplier in the world

Saved cost **6 figures**

Implemented projects in a 7-month span **20+**

Increased production efficiency

MAXXIS

Top 10 tire manufacturer

Identifying **100+** key factors

Increased production and R&D efficiency

Digitizing experience of senior technicians and accelerating global manufacturing

ACON ACON-HOLDING INC.

36-year electronics manufacturer

Implemented Near **500 projects**

Established digital transformation corporate culture

Increased data analysis efficiency
